

## Family Activities

### CONSERVING NATURE

How can we all help conserve nature?

1. For each category below, tick the actions you already do and choose 2 actions that you will start doing now to help protecting nature to ensure our future. Compare your choices with your family and friends. Who is the eco-champion?

2. At Slough Fort we understand the importance of nature and biodiversity for our community well-being. Underline, in your opinion, the 3 most important actions we do to make a difference on our planet.

- A. Conserve the wildlife by planting wildflowers, trees and hedges to restore biodiversity.
- B. Connect with our local school by offering conservation programmes to our lovely children.
- C. Integrate our community by creating a community orchard to connect with nature and develop sustainable projects.
- D. Provide a safe environment for our busy bees as well as local honey to our community.
- E. Promote family educational activities to connect our community and to inform, protect and love where we live.
